

CAPABILITIES STATEMENT

WWW.REL-TEK.COM

Rel-Tek is a unique electronics firm with enormous capabilities to develop and produce a broad range of sensors and accessory products that contain and optimize the normal features of competitive offerings.

COMPANY SNAPSHOT

Established: 1979
Incorporated in Pennsylvania
CAGE: IWDA2
DUNS: 10-158-3961

CORE COMPETENCIES

- Computer Monitoring System to include software and telemetry
- Combustible Gas Sensors – Approvals include Class 1, Div 1&2, Groups B, C and D.
- Toxic Gas Sensors – O₂, CL₂, CO₂, H₂S, SO₂, NO₂, NH₃, O₃ and O₂
- Environmental Sensing – Smoke, Temperature, Humidity and Air Velocity
- Physical Sensing – Pressure, Spill Switches

DIFFERENTIATORS

- Monitoring Software is designed by Rel-Tek
- Customizable HMI, Controls and Alarms

NAICS CODES

- 334513 Process Control Instruments
- 334514 Relays/Industrial Control
- Toxic Sensors
- Environmental Sensors

LICENSES AND APPROVAL

- PE Licensed for PA
- MSHA Approvals
- UL Approvals
- BOTE Approvals

EXPERIENCES

- Core (Consol Energy) – (2023 to Present) – Gas and environmental monitoring of air exhausted from an active mine in West Virginia
- Compass Minerals – (2016 to Present) – Natural Gas monitoring of a gassy salt mine in Louisiana
- Morton Salt – (2010 to Present) – Natural Gas monitoring of a gassy salt mine in Louisiana
- New Jersey Transit – (1998 to Present) CNG monitoring of a large bus garage in New Jersey
